> H/Pete - if I may suggest the following - Gold King is now a Type 1 Incident largely due to the geography, politics and news coverage. Because we will be heavily scrutinized I think it would be prudent for Reg 9 (at the very least and best if the Agency) would define clear and succinct Mgmt/policy objectives for us and others who will be managing various aspects of the response. These "marching orders" will help keep us all pointed in the right direction. In the ICS orthodoxy this would be akin to the "Administrator's Delegation" - I.e., formalizing mgmt's expectations
